Truck Fleet - 1970

Wieser Star Silos-1980

First Wieser Sign-1965

In 1965, Joe Wieser founded Wieser Concrete with nothing more than a single boom truck that he built himself, a septic tank mold, the acreage he purchased in Maiden Rock, and his wife, Mary Wieser, by his side. Mary managed the back end of the business while Joe made the tanks, delivered them, and set them in place.

Since then, Wieser Concrete has grown exponentially. Today, we operate under the umbrella of the Wieser Companies, with production locations in Maiden Rock, WI, Portage, WI, Roxana, IL, and Rosemount, MN, as well as four distribution sites in Fond du Lac, WI, Spooner, WI, Weston, WI and Jordan, MN.

Wieser Form Fabrication in Menomonie, which Joe built in 1979, at the time was known as Wieser Engineering & Manufacturing and was located on the same property as Wieser Slatted Floors. In 2013, Joe's sons purchased it from their father and transformed it into Wieser Form Fabrication, where forms are manufactured and sold throughout the precast industry.

As mentioned earlier, Joe Wieser started with just one boom truck that he built himself. Today, Wieser Trucking operates over 50 boom and semi-trucks.

What began as a small "Mom & Pop" operation with just Joe and Mary has evolved into a thriving business, with the third generation of Wiesers stepping up to manage day-to-day operations and drive growth in response to the increasing demand for precast concrete.

Joe may have started with just a few septic tanks, but today, with the vision and help of his sons, grandsons, and hundreds of dedicated employees, Wieser Concrete manufactures and sells a wide variety of products. These include a large selection of septic tanks, highway barriers, agricultural feed bunks, in-ground manure pits, hog and cattle slats, and commercial products such as noise walls, retaining walls, box culverts, and more!

The dream continues to grow, but one thing that has never changed is the commitment to taking care of employees and customers. Wieser Companies creates a family atmosphere for all employees and ensure exceptional service for customers- from the very first conversation, to years after a project is completed. This dedication is what truly sets Wieser apart from the competition and keeps customers coming back year after year.

# JOBS OF OLD & NEW

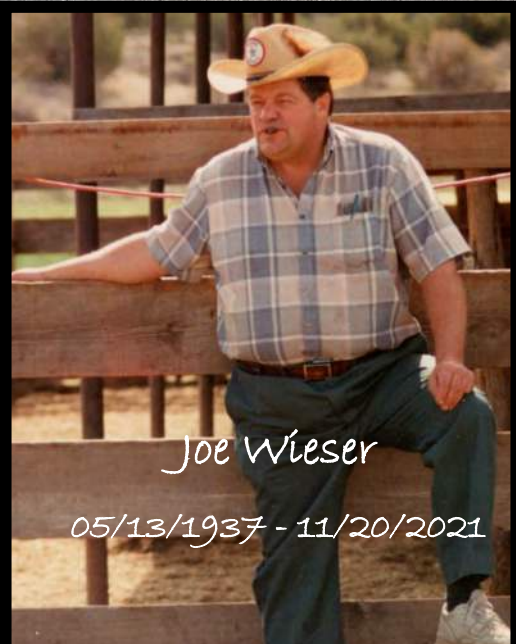

Production at Wieser Concrete - Maiden Rock, WI has been ramping up, preparing for a Box Culvert job that includes 292 pieces to create 3,516LF of culvert.

Starting the first week of April, Wieser Trucking will begin their deliveries of these boxes. In total this job will be 432 loads heading to Minot, ND. These deliveries will continue through the summer!

Now that Spring has finally arrived, this looked like a fun throwback to 1990!

Wieser Concrete created this beautiful retaining wall that shouts SPRING from every level of these beautiful flower beds! Now that is what you call, making a statement!!

*Joe Wieser*
