

# WIESER CONCRETE

Here it is—May already! Winter has passed, and our busy season lies right at our feet.

Throughout the winter, our Portage, WI team received a special order—one that was an honor to be asked to create.

Michels has been a longtime customer of Wieser, partnering with us on projects ranging from small 4" end walls to retaining walls, box culverts, and pedestrian tunnels.

Recently, while working at the Richard L. Schafer Dam on Lake Success in Worth, CA, they needed a custom sign and reached out to us to design and ship one.

The finished precast sign measures 3 feet tall by 60 feet long and is now proudly installed atop the completed dam.
