

WIESER CONCRETE

PAN-L-BILT UNDERBARN MANURE STORAGE SYSTEMS

FOR ROBOTIC MILKING CENTERS

- Economical
- Fast, Efficient Installation
- Less Square Footage Required per Animal
- Clean, Dry and More Comfortable Animals
- No investment in expensive mechanical collection equipment
- No machinery maintenance problems
- No daily labor required for operation of equipment

- No electric power needed; saves energy
- Underbarn storage saves valuable farmstead land
- Maximum nutrient value of manure is saved.
- Pit system serves as floor and foundation of building.
