Position:

Semi/Boom Truck Driver

Description:

Founded by Joseph H. Wieser in 1965, Wieser Concrete Products, Inc. started its Manufacturing Operations near Maiden Rock, WI.

Over the years, the market demand has resulted in Wieser Concrete Products, Inc. developing additional manufacturing facilities at Menomonie, Portage and Fond du Lac, Wisconsin, Roxana, Illinois, Rosemount, MN and distribution sites in Spooner, Wisconsin and Jordan, Minnesota.

Wieser Concrete Products, Inc. manufactures an extensive line of precast concrete products for the Agricultural, Underground, Highway, and Commercial markets. This diversity and flexibility has aided Wieser Concrete in maintaining a sound, successful operation.

Purpose:

The Class A CDL Truck Driver will deliver Wieser Concrete products to local and regional job sites and customers.

Primary responsibilities:

- Operate boom truck crane to lift, move, position or place equipment and materials such as, but not limited to, Jersey barriers, concrete silo bunkers and septic tanks at construction and customer sites.
- Perform pre-operational inspection on equipment and calculate crane capacities to prepare for rigging and hoisting.
- Safely load and secure all materials.
- Perform routine maintenance on crane and boom truck, including daily inspection and required lubrication.
- Follow all Company and OSHA regulations.
- Record and log all required information including driver's logs and delivery tickets.
- Other tasks as assigned.

Benefits:

- Competitive Wages
- Holiday/Vacation Pay
- 401k with Employer Match
- Profit Sharing
- Health Insurance and HSA

Qualifications:

- Class A CDL license
- Clean motor vehicle record
- Ability to pass a background and drug test
