

StormTrap and Wieser Concrete Collaborate on Clean Water Solutions

Exciting developments are underway with the Hodgson Road Reconstruction project, stretching from Gramsie Road to Hwy 96 in Vadnais Heights and Shoreview, MN, and slated for completion by Fall 2024. This ambitious initiative by Ramsey County tackles longstanding runoff and flooding issues, **significantly boosting** local infrastructure and **safety**. At the heart of this project is a state-of-the-art underground stormwater solution featuring 3 SiteSaver STSS-18 units and a 5'-2" SingleTrap system, with a total water storage capacity of 321,126 cubic feet. Pretreatment measured at key inlet locations aim for an **"80% reduction** of the OK-110 PSD," ensuring **cleaner water** for the community.

Eureka Construction, Inc. and Wieser Concrete showcased their expertise with a high-quality, swift installation in March and April 2024, managing up to **30 truckloads per day**. Design engineer, Connor Fortune, overcame several challenges, including height and site constraints and the removal of organic material to prepare the foundation.

Effective communication was key to the streamlined progress of the project, as noted by Senior Territory Manager of StormTrap Matt Kamenick:

“Communication between Operations and the Contractor on this sizeable project was essential to having a well-managed and smooth installation.”

This cutting-edge stormwater infrastructure not only modernizes the roadway but also significantly enhances water quality and **mitigates flooding risks**, offering lasting benefits to the residents of Shoreview and Vadnais Heights. The Hodgson Road Reconstruction project is a testament to the power of innovative engineering and community-centered development, promising a brighter, safer future for all.

Wieser Concrete stands in solidarity with our soldiers and honors the heroes of **September 11th**, reflecting on their courage and the lives lost. As we approach this date, let's celebrate the resilience and unity of our communities, embodying values of kindness and strength in our daily lives.

Labor Day also gives us a chance to appreciate the everyday heroes who keep our world running smoothly. From builders and teachers to baristas and doctors, we recognize and thank all those who play a vital role in our lives.
