

Wieser Concrete is pleased to have three more graduates of the National Precast Concrete Association's (NPCA) Master Precaster program.

Austin Wieser, Adam Wieser and Lucas Winkler received their certificates of completion and their golden hard hats at the ceremony of graduates, held at The 2024 Precast Show in Denver, CO.

The NPCA Master Precaster program is a series of training courses designed to educate and test precast professionals in areas of production, safety, technical, quality control and leadership.

Austin, Adam and Lucas join a group of Master Precaster grads already at Wieser Concrete.

Additionally, Adam started the 2024 cohort of Leadership NPCA (LNPCA). Each class is selected through an application process. Drew Wieser is a graduate of the first cohort of LNPCA.

Wieser Form Fabrication display at booth 425.

Long-term NPCA Precast industry members networking. Gainey's & Wieser Concrete.

Onsite Wastewater Training Seminars

Wieser Concrete and Oconto County co-hosted a septic seminar in Suring, WI on February 22. The event brought together a great turn-out of attendees, speakers and vendors. The seminar showcased positive networking interactions and project discussions. Winnebago, Brown, Oneida, Oconto & Lincoln Counties provided reports to the group. Cece Rudnicki spoke on POWTS solutions for challenging sites. OSHA spoke on trenching safety steps, DNR spoke on regulatory updates. Mark Wieser and Andy Winkler discussed precast concrete tanks and flotation modifications.

Looking ahead, the next seminar dates are Mar. 12 in Fond Du Lac, Mar. 14 in Portage, Mar. 19 in Maiden Rock and Mar 21 in Spooner.
